

# PRESENTATION STAGE

## Host a professional looking online event from our presentation stage at the RBC Convention Centre

Encore's Presentation Stage at the RBC Convention Centre comes with a complete technical set-up so you can deliver your message via any online solution. The best part is, you'll have our expert team onsite to help optimise your presentation as well as our virtual stage team to manage the event so all of your speakers can present with confidence. When it comes to safety, our MeetSAFE protocols have been put into place to ensure the safety of both your team and ours.

Looking to connect your presentation with another location? Our family of companies has the ability to create the largest inter-connected network both in Canada and around the world!

## Why Use a Virtual Presentation Stage?

Our turn-key and custom solutions offer state-of-the-art technology and facilities for a wide variety of online events. In one of our interconnected virtual presentation stages, you can deliver professional footage in a styled environment for any purpose, anywhere across the world.

- ✓ **Enhanced attendee engagement:** Engage your attendees with a dynamic presentation streamed live or video on demand
- ✓ **Speaker and attendee flexibility:** Bring speakers and attendees to your event, regardless of their location and without having to travel to a central place
- ✓ **Flawless production:** Our team will support you with all aspects of virtual event production from planning to rehearsal, presenter direction and virtual stage management to execution and post production.
- ✓ **Custom branding:** Each of our virtual presentation stage packages allow for various custom branding opportunities.
- ✓ **Leading edge technology:** Leveraging our extensive experience in event technology, our teams can create compelling onstage moments using the latest in available technology.
