

PLUMBING RULES & REGULATIONS

Exhibitors are prohibited from opening or removing the covers on the floor ports without an RBC Convention Centre plumber present.

Plumbing Service includes bringing service from the main line to the booth.

Hot tubs may not be displayed on the 1st and 2nd floor without prior consent.

The RBC Convention Centre Winnipeg plumber must approve the size of drain hoses and the rate of flow before hot tubs or other water containers can be drained.

Exhibitors intending on filling hot tubs will be required to order the water hookup and drain. Be aware that the initial fill is part of the water hook-up charge. There may be a surcharge levied for refills, based on consumption.

The RBC Convention Centre Winnipeg recommends that exhibitors provide their own filter system to ensure clean water.

No guarantee can be made on minimum pressure. If pressure is critical the exhibitor should arrange to have a pressure regulator valve installed.

Exhibitors will be responsible for any and all damage and any liability caused by faulty equipment owned by the exhibitor and/ or installation of same.

Supplying of services by outside contractors within the RBC Convention Centre Winnipeg may result in a fee charged to the supplier or client.
