WINNIPEG RYE BREAD

Unlike typical rye breads, Winnipeg rye is lighter and has a softer texture. This distinctive bread gets its signature flavour from a blend of wheat and rye flour, along with a special "sour" starter that gives it a subtle tang. This bread is so iconic that it's almost a local cultural symbol. Many bakeries in the city keep their starter cultures secret, passed down through generations.

DID YOU KNOW ...

Chickens raised for meat in Canada are free-run? Free-run chickens roam freely throughout spacious, temperature-controlled, well-ventilated barns that protect them from predators, provide comfortable bedding, access to clean water and nutritious food at all times.

Because they are raised indoors, farmers are able to continuously supply local chicken to us year-round.

CHEERS

Our wine list is created by our own in-house sommelier with both large events and unique dinners in mind.

It is developed to compliment local flavours and Manitoban ingredients featured in our menus.

Be sure to also check our Jones & Company reserve list if you are looking for that extra special bottle for your event.

* Blanc de Blanc and Coup de Coeur are exclusive VQA Niagara wines that have been blended for the RBC Convention Centre by our partners at Pelee Island, Ontario and imported by Boutique del Vino. Focusing on grape varietals which fare best in the Canadian climate, these two wines have been produced to work with our kitchen's localized menu ingredients and are featured on our cash and host bar services by the glass.
